

## DOC. GIBSON QUILTS CALGARY SEPTETTE

Gibson opposed to Playing Ringers  
and Severs his Connection With  
Calgary Club. Calgary Team Will  
not Play Strathcona Men. Other  
Side of the Lacombe Trouble.

Calgary, Feb. 2.—Doc Gibson, President of the Alberta Amateur Hockey Association, has received the following letter from the Calgary team. He has taken this stand to show the province his impartiality and it is his intention to prevent league jumping and the signing of "ringers" on teams now competing for the Alberta A.A.H. championship. The letter states that he has nothing to do with the Strathcona players being brought to Calgary and will not tolerate the playing of "ringers" by any team in the league or affiliated with the league.

Other hockey magnates have taken the same stand, as Doc Gibson on the

**ENTERTAINMENTS.**

**EMPIRE THEATRE.**

Next Monday, February 6, the Courtney Morgan Company will commence an extended engagement in stock productions. Their initial offer-

ing will be the romantic drama, "A Woman of Mystery." In this play Miss Morgan has gained much distinction in the character of Ayesha. She relates the story of a woman with a past told with all graceful finesse of the Frenchman. Elaborate scenery and costumes add an additional interest to this appealing narrative. Miss Morgan will be supported by a competent company, headed by Roy D. Way. Some pleasing specialties

are promised to fill intervals between acts.

---

**AT THE LYCEUM.**

That Edmonton theatre goers appreciate a good musical comedy company was shown by a fairly large and satisfied audience that greeted the Sherman Musical Comedy Company at the Lyceum last night. Those who attended last evening unite in agreeing that it was an unusually good

little company for its size and that it offers a very bright and tuneful musical comedy. In every part of "I Happened in Nordland," there are places for laughs. Emil Kruschke plays a very funny Dutch comedy part which was formally played by the well-known Law Fields. The Beauty Girls are at the front this week in their work and have some very effective numbers especially the "Dr. Tinkle" song led by Mr. Kruschke, and each girl does a solo dance that is worth

of the highest praise. The work in this dance of Nani Pomeroy rather tops them all. She was dressed as a scarecrow and acted and danced to perfection. The rest of the company are good comedy parts. This is a good clean comedy and should serve to draw a large patronage to the Lyceum.

**Likely That a Conclusion Will Be Reached in Vancouver Next Week.**  
Vancouver, Feb. 1.—The royal commission investigating Chinese immigration, which is in session here, will adjourn likely on Saturday for the purpose of taking evidence at Victoria. It will conclude its enquiry here next week. Detectives employed by the commission have been scouring Vancouver's China town armed with photographs of Chinese who have entered Canada at this port as merchants.

ants bearing passports. The Celestians' fruits of that quest were again sorted out before the commission today. Two yesterday admitted they had gained entry in violation of the regulations. Two today, while admitting they had entered on passports, swore they obtained the documents through agencies of the "Sinsau," a mediaeval class in China variously described as "gentry, bachelors of art and lawyers."

**Eggs Received From China Said to be Unfit for Consumption.**  
Montreal, Feb. 1.—Justice Guerin Layton and Company, New York Importers, restraining officials of the city from seizing and destroying a \$100,000 shipment of eggs from Hankow, China. It is alleged the claims they are unfit for human consumption and they were ordered destroyed today. An injunction till Feb. 15 was granted.

Coca and Other Medicated Wines

CHERRY

WILSON'S INVALIDS' PORT

Most tonic wines are wholly dependent on the alcohol they contain for their stimulating qualities. Not so with Wilson's Invalids' Port, which contains only the natural juice of the grape—its tonic action is cumulative, that is, it continues to exert its effect in a gradually increasing manner, until the whole system is strengthened and invigorated.

The appetite improves, the digestive functions acquire a healthy activity and both mental and physical exertion can be borne without abnormal fatigue or exhaustion.

Dr. WALTER H. MOORHOUSE, says:

Dinner, Medical  
Faculty, Worcester  
Polytechnic Institute,  
Boston, Mass.,  
London:

"It is most important thing that the physician can conduct a procedure in a certain tract, so as to be able to test completely and which possesses in an unusual degree, as your 'Gastric' formula 'First' dose, all the benefits and' effects of good animal matter, along with the natural of Chinese herbs, which is one of our best tonic."

## U.S. DELEGATIONS ARE PROTESTING

LARGE NUMBER OF DEPUTIES  
THINK APPEAR BEFORE WAY  
AND MEANS COMMITTEE.

Washington, Feb. 2.—The committee of the American reciprocity agreement looks upon the ways and means committee today, when that committee have its first hearing on the measure to amend and take precedence from Gloucester who presented their reasons for objection to the reciprocity arrangement upon fish and before the meeting was cancelled requests had been placed upon the table for hearings on the wool, paper, lumber, barley and other schedules of the agreement.

To open up hearings on all these subjects on the opinion of members of the committee will hinder the passage of the agreement by the present session of Congress.

After a short executive session to-day individual members of the committee made it plain that hearings will not be undertaken on any scale such as will delay or obstruct the reciprocity negotiations.

In answer to the representations from paper men chairman Payne said that they had been invited to come at once if they insisted upon being heard. The barley interests of the northwest, he said, had not been heard before the committee in the framing of the Payne tariff law and they also would sit as an opportunity to present their case. The committee does not propose, however, to open hearings of subjects that were given in the exhaustive findings two years ago.

These facts were brought out in a debate between members of the committee before the Gloucester submission completed their case.

Representative Champ Clark protested it is a waste of time. Chairman Payne if the reciprocity agreement is embodied in the tariff bill it will be reported out to the House before the first of next week. Mr. Payne said he did not know but indicated that the request of several parties to be heard would be taken into consideration and that the bill would probably remain in the committee until about next Tuesday.

The failure of Secretary Knox to appear before the committee today after it had been announced that he would do so, caused general surprise. The explanation given by the ways and means committee members was that Mr. Knox felt he was un-diplomatic and not in keeping with the usual history of trade agreements negotiated for him by the ways and means committee and answer in detail as to the methods of making the agreement and the various elements that entered into it. Mr. Knox's position had been clearly set forth in his letters accompanying the trade agreement, which it was transmitted to Congress.

Some of the Democratic leaders today gathered themselves in favor of a general caucus of the Democrats to determine the party's attitude to the Canadian reciprocity agreement. They felt, however, no definite step in this direction has been taken, but fifty signatures are all that is necessary to bring about such a conference. These may be collected within a few days.

Some of the state delegations are divided in their views. Georgia Democrats for instance tried to get together on the question today, but split, the voting breaking today and against Kentucky, Indiana and other state delegations also met and in the main favor reciprocity.

## TRYING TO SOLVE ELEVATOR PROBLEM

Premier Scott Introduces a Bill in the Saskatchewan Legislature to Incorporate the Grain Growers Elevator Co. of Saskatchewan—Will Advance Money.

Regina, Feb. 2.—In the legislature this afternoon, Premier Scott introduced the bill to incorporate the Grain Growers Elevator Company of Saskatchewan. This bill is designed to give effect to the findings of the elevator commission and thus provide for the elevator problem in this province.

By this bill members of the executive of the Saskatchewan Grain Growers Association are created a body corporate and politic and the government is authorized to advance to the company thus created a loan not to exceed 15 per cent for the real estate elevator purchased or constructed by the company.

By the bill the government is empowered to make a cash grant to the company to cover the expenses incurred in organization of the company or of local bodies of shareholders who support an elevator at any point in the province.

## RAILWAY TRACKS COVERED.

People Delay Trains on the Southern Pacific Line.

Los Angeles, Cal., Feb. 2.—Traffic on the coast line of the Southern Pacific is seriously affected today as the result of forest conditions in the northern part of Santa Barbara county. The reports received at the local office of the Southern Pacific are to the effect that the tracks have been covered with debris at the main flat west of Santa Barbara. The track is reported to be in danger and it will take several hours to clear it.

All trains which left San Francisco for Los Angeles today have been detained by way of San Jose and Valparaiso. It is said that trains will be running on schedule time late in the day.

## PRIVILEGE COUNCIL PROCEEDS AGAINST C.P.R. LANDS

Court of Last Resort Delivers Judgment in Case Involving Millions of Dollars

THE DECISION REQUESTED IN PRAIRIE PROVINCES

C.P.R. Lands not Taxable Till 30 Years After Letters Patent Are Issued.

London, Feb. 3.—Judgment was given today by the privy council in the important case of the minister of public works for the province of Alberta against the C. P. R. This was a test case for the exemption of C. P. R. lands from taxation and resulted in a win for the railway company all along the line, the one being disallowed without the other. Their lordships held that unappropriated C. P. R. lands were not taxable until twenty years after the actual grant of letters patent in the matter, even though there be a delay of many years on his part in taking out these letters patent. They also held that C. P. R. lands sold on the installment plan were not taxable until the installments are paid.

**How In C. P. R. Land.**  
Winnipeg, Feb. 3.—The failure of the privy council to tax the C. P. R. lands will be well received in the prairie provinces, practically every municipality and school district being affected. It is expected that official statements of the attitude of the law department of the province will be forthcoming, but well informed people here seem to consider the decision as final. A further rise in C. P. R. lands is anticipated.

**History of the Case.**  
The case just decided in the Privy Council between the Alberta Government and the C. P. R. has now occupied some three years' labor on the part of the Attorney-General's office. In the fall of 1907, preparations were begun under the Hon. C. W. Cross to institute proceedings against the C. P. R. with regard to the taxation of land, which the C. P. R. claims should, under the original contract with the government, be exempt from taxation.

The agreement between the railway company and the government was for the granting to the C. P. R. of the old-mountain route for 25 years on either side of their line. At that time the "line" meant only the main line and the C. P. R. had not yet begun to build the branch line stretching from Ontario to the Pacific. With the expansion of the C. P. R. and the building of new lines, the original grant assumed a new significance. As each line was built, new patents were issued, continuing in particular the original grant of the C. P. R. since the completion of the railway in 1885, the question has been one of arising as to when the grant was made—at the time of the contract or at each successive extension. As the land was to be exempt from taxation for only twenty years, the making of the grant, the date at which it was made became an important matter.

Clause 10 of the contract between the Dominion Government and the Canadian Pacific, under which the latter was granted the right to build the railway, provided that the land was to be exempt from taxation for 25 years.

16. The Canadian Pacific Railway and all stations and station grounds, workshops, buildings, and other property, rolling stock and apparatus, engines, tenders, and other equipment, and all other property, shall be exempt from taxation for 25 years from the date of the grant thereof, and thereafter for so long as the same shall remain in the hands of the Canadian Pacific Railway Company.

The contention of the Crown was that the twenty years started to run from the date of the grant of the railway, and that the time when the survey was completed and sections were laid out was the date when the grant was made. This was done in the lands to which the C. P. R. was granted the right to build the railway in 1885, and the twenty years' term, it was claimed, began to run from that date.

The decision was upheld by the Supreme Court of Canada in the case of the Crown v. C. P. R., and the decision of the Supreme Court was binding on all the lower courts of Canada.

## GRAND CENTRAL HOTEL LICENSE CANCELLED BY THE DEPARTMENT

By order of the board of license commissioners filed yesterday with the Attorney-General's Department, the license of the Grand Central Hotel, 213 Jasper Avenue, held by J. D. Mercer, is cancelled. The order is issued as the result of the inquiry held at Edmonton last week and the cancellation takes effect today.

The reason given by the commissioners in the finding for cancelling the license is that it was clearly shown to their satisfaction that the hotel was not keeping its premises in accordance with the Liquor License Act. The order was issued from Medicine Hat, January 31, and is signed by the three commissioners, Thos. McKeen, O. F. Strain and D. G. Payne.

## THE PRAIRIE PROVINCES WILL GET CONTROL OF RESOURCES

Says Hon. A. J. Sifton, Premier of Alberta, Returned From Eastern Canada—Attitude There Favorable to Demands of Western Governments—Premier Sifton Tries to Make of Them a Basis for Action.

It is bound to come, said Premier Sifton, in the House of Commons in speaking of provincial control of natural resources, the "game" which he preached before the Canadian Club in Toronto and at other places during his recent tour of the United States, which he returned to the city last night after an absence of three weeks, to name his official duties. He is a glowing believer in the principle, and he is convinced that it will be a matter of short time till the administration of the revenue producing resources of the prairie provinces would be turned over to the provincial governments. He said that the western provinces, and Alberta, Saskatchewan and Manitoba placed on the same footing in this respect as Ontario. The reception which has been accorded his plan of action in the west, he said, has been delivered in eastern Canada showed that the people there appreciated the demands of the western provinces. He said that the western provinces, and Alberta, Saskatchewan and Manitoba placed on the same footing in this respect as Ontario. The reception which has been accorded his plan of action in the west, he said, has been delivered in eastern Canada showed that the people there appreciated the demands of the western provinces.

## HE MADE THE FINAL SURVEYS FOR THE MAIN LINE OF C.P.R.

Investing Visitor in the City in Person of Matthew Nelson, of Montreal. Who is Visiting West After an Absence of Thirty-Five Years—He Undertook Survey Work From Portage to Prairie West.

To have blazed the way for Canada's first transcontinental and to have built another in buffalo days, and to revisit after thirty years the country which he surveyed, this was the mission of Matthew Nelson, of Montreal, who is visiting the city after an absence of thirty-five years. He is the man who made the final surveys for the main line of the C. P. R. from Portage to the Pacific. He is now in the city on a holiday, and he is now in the city on a holiday, and he is now in the city on a holiday.

Mr. Nelson's conversation is replete with reminiscences of his early days in the west. He is now in the city on a holiday, and he is now in the city on a holiday, and he is now in the city on a holiday.

# NEWS NEWS OF SPORTS

## DEACONS NOW HAVE THE LEAGUE CINCHED

My Deacons V. Y. C. Last Night by Score of 6 to 4, thereby clinching the championship of the northern section of the Provincial league.

It was expected that the Deacons, with Sherry Campbell back at cover point, and their formidable line, would have been able to win the game. But the Y. C. A. boys were too good for them. The Deacons, however, played a first class game and won the match by the final score of 6 to 4.

Only about two hundred enthusiastic hockey fans were present at the game. The Deacons, however, were in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

When this happened, three Deacons men, McLennan, Hanford and Campbell were on the ice, and the Deacons were in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

Wright, the Y. M. C. A. goal-keeper, played a remarkably good game. The Deacons, however, were in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

Although the Deacons made a much better showing than in their early games, their work was not perfect. The Deacons, however, were in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

For the Y. C. A. boys, Douglas and Ward played well, while Sherry Campbell, who was in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

Several Deacons, who were in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

Wright, the Y. M. C. A. goal-keeper, played a remarkably good game. The Deacons, however, were in fine view, and the game was a pretty one. The Deacons, especially in the second period, when the Y. C. A. in four goals in quick succession, and the tie score.

## U.S. DELEGATIONS ARE PROTESTING

LARGE NUMBER OF DELEGATIONS APPEAR BEFORE WAYNE AND MEANS COMMITTEE.

Washington, Feb. 3.—The accumulated demands for hearing as a result of the provisions of the Canadian reciprocity agreement broke upon the ways and means committee today when that committee gave its first hearing on the measure to fishermen and fish packers from Gloucester who presented their reasons for objection to the reciprocity arrangement upon fish and before the meeting was concluded requests had been placed upon the table for hearings on the wool, pulp, paper, lumber, barley and other schedules of the agreement.

To open up hearings on all these subjects on the opinion of members of the committee will endeavor the present session of Congress.

After a short executive session today individual members of the committee made it plain that hearings will not be undertaken on any scale such as will delay or embarrass the reciprocity negotiations.

In answer to the representations from paper men chairman Payne said that they had been invited to come at once if they insisted upon being heard. The barley interests of the northwest, he said, had not been heard before the committee in the framing of the Payne tariff law and they also would sit at an equally important place in consideration and that the bill would probably remain in the committee until about next Tuesday.

The failure of Secretary Knox to appear before the committee today after it had been announced that he would do so, caused general curiosity. The explanation given for the delay and means committee members was that Mr. Knox felt it would be undiplomatic and not in keeping with the usual history of trade agreement negotiations for him to appear before the committee and answer in detail as to the merits of the various elements that entered into it. Mr. Knox's position had been clearly set forth in his letters accompanying the trade agreement, which it was transmitted to Congress.

**Favor General Caucus.**  
Some of the Democratic leaders today expressed themselves in favor of a general caucus of the Democrats to determine the party's attitude to the Canadian reciprocity agreement. So far, however, no definite step in this direction has been taken, but fifty signatures are all that is necessary to bring about such a conference. They may be collected within a few days.

Some of the state delegations are divided in their views. Georgia Democrats for instance, tried to get together on the question today, but split, six voting reciprocity and four against. Kentucky, Indiana and other state delegations also met and in the main favor reciprocity.

## TRYING TO SOLVE ELEVATOR PROBLEM

Premier Scott introduces a bill in the Saskatchewan legislature to incorporate the Grain Elevators Elevator Co. of Saskatchewan—Will Advance Money.

Regina, Feb. 2.—In the legislature this afternoon, Premier Scott introduced the bill to incorporate the Grain Elevators Elevator Company of Saskatchewan. This bill is designed to give effect to the findings of the elevator commission and thus provide for the elevator problem in the province.

By this bill members of the executive of the Saskatchewan Grain Growers' Association are created as body corporate and politic and the Government is authorized to advance to the company, thus created a loan not exceeding 25 per cent of the cost of each elevator purchased or constructed by the company.

By the bill the Government is empowered to make a cash advance to the company to cover expenses incurred in organization of the company or of local bodies of shareholders who support an elevator at any point in the province.

## RAILWAY TRACKS COVERED.

Photo Delays Trains on the Southern Pacific Line.

Los Angeles, Cal., Feb. 2.—Traffic on the coast line of the Southern Pacific is seriously affected today as a result of flood conditions in the northern part of Santa Barbara county. The reports received at the local offices of the Southern Pacific are to the effect that the tracks have been covered with debris at the mud slide near of Canyon. The track is reported to be intact, but it will have several hours to clear.

All trains which left San Francisco for Los Angeles today have been delayed by way of San Joaquin Valley. It is said that trains will be running on schedule time late in the day.

## WATER-POWERS OF THE WEST

Limitation of License Periods and Other Features Adopted, With a View to Checking Monopoly and Preventing Abuse.

Ottawa, Feb. 3.—At the close of the Seven Years War in 1763, when it became a question of ceding the Province of Quebec to England, the French King and his Ministers asked for the opinion of the Chambers of Commerce, the leading merchants of France, one of which, that of Rochelle, in reply to a request for information against the surrender, declared that apart from her vast ships, the fertility of the soil and her wealth in fisheries and forests, New France possessed a "great number of waterpowers which some day would be employed in manufacturing on a very large scale."

**Rich in White Coal.**  
No one could know how many horsepower could be developed in connection with the various falls and rapids in Ontario and Quebec but it is safe to say the aggregate would far exceed the 5,516,400 horsepower at present developed. In the waterpowers of the United States, and this without calling upon any of the rivers flowing into Hudson Bay. As a single horsepower of continuous electric energy produces as much as is equal to the same unit of power produced by twenty tons of coal, it follows that in "white coal" Ontario and Quebec are rich beyond the dreams of avarice. It is not surprising, therefore, that the coal magnates in the generation of power represents just as much used up and lost from the general store, there is practically no diminution of the supply of water involved in the production of electricity, the river running on as before.

**The Old-Time Doctrine.**  
In Canada the doctrine of riparian right has been paid little lately to the public interest in waterpower. It has been taken for granted that the public had no interest in such things which were exclusively created by the benefit of mill and factory owners. This free and easy attitude was young, when manufacturing industries were hard set for power, and when the possibility of transmitting power over a distance of miles or of a home or operating a distant plant was not thought of, but today everyone agrees that the right and duty of the State to control such sources of energy is a natural right, and that they may be turned to the best possible use for the benefit of the people. The power is so much more than a mere commodity, that it is a public right. Now a 200 mile river of transmission from Niagara to the Chaudiere in Quebec means the opening of an area of 120,000 square miles of territory to the benefit of the people, and the power to any number of factories.

and municipalities. "Ottawa," it is said, "is not a force of the most economic importance should be handled by the government in behalf of the people at large, and not in behalf of a few private owners, or, at best, to a limited and therefore inefficient government control."

### Waterpowers in the West.

The Department of the Interior has established a policy for the utilization of the waterfalls in the railway belt of British Columbia, which by a recent decision of the Judicial Committee are vested in the Federal Government, that appears to have set the standard that any other yet devised in Canada or the United States. There are not more than a dozen on the prairie provinces, and for this reason it is all the more necessary that they should be made the most of. Mr. Oliver had to make the practice of how to attract capital for their development, and yet prevent capital from exploiting them for such as its own interest, and the primary object of the bill is to prevent such a thing from being done. It may be well to add that the new law and regulations regarding these waterpowers were contained in the Dominion Land Act of 1905, and some years before Mr. Roosevelt began the conservation campaign in the United States.

### Control of Charges.

The essential feature of Mr. Oliver's plan is Government control of the tolls or charges imposed by the leasing companies. Each mill or power plant of the lease itself. A comparison will illustrate. The Long Sault Development Company chartered by the state of New York to develop the waterfalls of the state, but not to be charged by the company to construct the plant, but to be subject to the approval of the Board of Railway Commissioners. In the first instance, and subject to revision by the board at the end of each period of seven years during the continuance of the license. On the third, the rental charged by the Government for the use of the power under the license is subject to change at the end of each period of seven years during the continuance of the license.

**Features of Agreements.**  
As waterpowers are valuable because of their strategic position, as well as because of the revenue they produce, and as their adequate development generally means a very large expenditure, it is not surprising that the priority of right to any given power is established by the law. An important feature of any regulations concerning them. In this connection it is of interest to note that the priority of application does not establish priority of right, but an agreement as provided by the regulations is laid down that none of the applicants and the applicant for the development of the power, and the department calls for the development of a minimum amount of power with-

**Licenses Are Limited.**  
Under Mr. Oliver's policy, on the other hand, a license to use water for power purposes is limited for a period of twenty years, renewable on the fulfillment of the conditions for the license. The license is not to be renewed unless the licensee has made the improvement required by the conditions. While it is contemplated that the license should be renewed on an average period of twenty-four years, it is provided that at the end of each twenty-year term, on a year's notice being given, it may be renewed for another twenty years, if the licensee has made the improvement required by the conditions. If the licensee has not made the improvement required by the conditions, the license becomes subject to cancellation for the "value of the rights and privileges granted or the revenue, profit, or dividends being or likely to be derived therefrom. If the licensee of the twenty-four year license is not provided for and no notice from the licensee is received at the termination of the contract."

### Public Interests Guaranteed.

The interest of the public centers during the continuance of the license on three points: (1) rates paid by the consumers for the use of power; (2) rental payable to the Government for the license to use the power; (3) rental payable to the Government for the use of the power. The interest of the public centers during the continuance of the license on three points: (1) rates paid by the consumers for the use of power; (2) rental payable to the Government for the license to use the power; (3) rental payable to the Government for the use of the power. The interest of the public centers during the continuance of the license on three points: (1) rates paid by the consumers for the use of power; (2) rental payable to the Government for the license to use the power; (3) rental payable to the Government for the use of the power.

**Checking Monopoly.**  
Here, as will be seen, the public interests are simply protected, while the licensee is encouraged to invest his capital. In those American States which have adopted the principle of public ownership and control of waterpower, the licensee is usually for forty years, that of the Long Sault Company being the only perpetual one of any moment; but Mr. Oliver's twenty-year license, with the revision of the terms, including that of the rental payable to the Crown at the end of each period, is admitted by competent American authorities to be preferable. The same is true of the regulation of rates by the board of railway commissioners, which is an admirable provision.

**As in the operation of railways, so in the operation of power plants, there arises from the licensee the same tendency to amalgamation, which if properly controlled, makes for a better service. In the case of a free open market is a monopoly of power, and the licensee is subject to the control of the board of railway commissioners. In the case of a free open market is a monopoly of power, and the licensee is subject to the control of the board of railway commissioners. In the case of a free open market is a monopoly of power, and the licensee is subject to the control of the board of railway commissioners.**

**To Prevent Abuse.**  
Mr. Oliver's regulations which prevent such abuse deal with waterpower. The principal waterpowers in the United States, but certainly they proceed on a right line in checking undue combination and monopoly. The principal waterpowers in the Canadian west now in course of development are those of the Niagara river, Lac du Bonnet, the Bow and Elbow rivers, and the Saskatchewan. By steadily increasing the number of streams issuing from the Rocky Mountains will be secured a large share of any quantity of power in the rivers and cascades within the railway belt of British Columbia, as well as in the Yukon.

**SEVERAL FIRST AT LAMONT.**  
Mr. Hinton and his family left for the Yukon Territory on the 1st inst. with a party of 10 men and 100 horses. The party is expected to return in the spring.

## SPLENDID PROGRESS ON GRAND TRUNK PACIFIC

W. P. Hinton Reviews Work on Transcontinental—1025 Miles of Main Trunk Line, and the Main Branch Lines Have Already Been Constructed.

Regina, Feb. 3.—At the Regina board of trade banquet great interest was taken in the speech made by W. P. Hinton, general passenger agent of the Grand Trunk Pacific, in his speech Mr. Hinton said that since 1905 when work was actually commenced in western Canada there had been ready for partial operation in the first three years 675 miles of track, an average of 225 miles per year. In 1909 415 miles were added, and last year 415 miles. At present, therefore, the line is constructed between Lake Superior and the Rocky Mountains, 3,415 miles—100 miles from Prince Rupert, making 3,525 miles of main line, and 206 miles of branch lines, with 624 miles of main line and nearly 600 miles of branch lines under completion.

Mr. Hinton stated that the line across the continent is by far the best yet laid out over constructed. The maximum gradient is only a fifth of the line is constructed between Lake Superior and the Rocky Mountains, 3,415 miles—100 miles from Prince Rupert, making 3,525 miles of main line, and 206 miles of branch lines, with 624 miles of main line and nearly 600 miles of branch lines under completion.

**Six Lines Protected.**  
Mr. Hinton said that the line is destined to have the new railway serve its well. Six lines are projected east, west, north, and south, three of which are now under construction. To the north more than 150 miles of railway will be in operation next year, which will give Regina another road in addition to the main line to Hudson Bay.

**Local Traffic.**  
Mr. Hinton said that the line is destined to have the new railway serve its well. Six lines are projected east, west, north, and south, three of which are now under construction. To the north more than 150 miles of railway will be in operation next year, which will give Regina another road in addition to the main line to Hudson Bay.

**A REPORTED WRECK.**  
Story That No. 86 of the C.P.R. Met with Accident Near Swift Current. A Western Railway Express train, the City of Toronto, No. 86, had been wrecked near Swift Current, Alberta. The train was carrying a large number of passengers and freight. The wreck occurred on the main line of the Canadian Pacific Railway, near the town of Swift Current, Alberta. The train was carrying a large number of passengers and freight. The wreck occurred on the main line of the Canadian Pacific Railway, near the town of Swift Current, Alberta.

**SEVERAL FIRST AT LAMONT.**  
Mr. Hinton and his family left for the Yukon Territory on the 1st inst. with a party of 10 men and 100 horses. The party is expected to return in the spring.

**Strengthen the Body**

## AROUND THE CITY

## LOCAL

Mrs. E. M. Carpenter, 245 Seventh street, west, will receive Monday, Feb. 20, and afterwards on the first Monday of each month.

W. Chapman, late window trimmer, shoe coter and advertising man for the Hudson's Bay Co., has decided to enter business for himself and has opened offices in the new Biltmore block.

At the meeting of the Westwood Star Chapter of the Daughters of the Empire, Mrs. H. C. Wilson, last vice regent, Miss Shubert, 2nd vice regent, Mrs. E. C. Purdie, treasurer, and Miss Crookall, secretary.

The cantata "Christ and His Soldiers" will be given in Knox Presbyterian Church, Strathcona, on this Friday night. It will be rendered by solo voices. The following artists will take part: Miss Chandy, soprano; Miss Cosens, mezzo-soprano; Mr. Hudson, tenor; and Mr. Masters, bass.

After a trip lasting nearly 40 days, Mr. and Mrs. W. J. Smith, who left from as far north as Fort Providence, arrived in Edmonton yesterday. They were accompanied by R. J. McLaughlin and Ed. W. Smith, both of whom were brought from Fort Chipewyan to Edmonton by the Hudson Bay Company.

Three sets of members of the Methodist Sunday School in Edmonton attended the annual banquet of the Sunday School union of the two dioceses last night in the Metropolitan Methodist Church, Strathcona.

Premier Sifton returned last night from Quebec and Montreal where he has been for several weeks. After reaching Strathcona by the late train, the Premier attended to the congratulations of the students of the University of Alberta.

**AN ELEGANT APPEAL.**  
I am forced to sell my baggage machine and many other things to pay my bills. I have been in the business for many years and have made a name for myself. I am now in a position to pay my bills and I am forced to sell my baggage machine and many other things to pay my bills. I have been in the business for many years and have made a name for myself.
